

CS-VUE News and Updates for July

- To view this email online [click here](#)

Hi CS-VUE Subscriber,

Welcome to the July issue of CS-VUE news and updates.

In this issue we will let you know about new CS-VUE product enhancements, RMA compliance news, and a client case study.

In this issue

- ▶ [CS-VUE UPDATES - ENHANCED CONDITION REPORTING](#)
- ▶ [CS-VUE UPDATES - ADDITIONAL BROWSE FUNCTIONS](#)
- ▶ [BY THE NUMBERS - STREAM BED SEDIMENT COSTS LOGGERS \\$25,000](#)
- ▶ [BY THE NUMBERS - \\$8,000 FROM CARTER HOLT HARVEY](#)
- ▶ [CS-VUE CASE STUDY - AUCKLAND CITY COUNCIL](#)
- ▶ [FEEDBACK](#)

CS-VUE UPDATES - ENHANCED CONDITION REPORTING

The screenshot shows the 'Projects - Manage' interface in Internet Explorer. The browser address bar shows the URL: https://login.csvue.co.nz/content_frame.php?pagetype=project. The page title is 'Projects >> Manage: All conditions'. Below the title, there are fields for 'Project Name: All conditions', 'Project Manager', 'Type: Consents Group', and 'Status: Active'. There are 'Save' and 'Save and close' buttons. A 'Compliance Summary' table is displayed with the following data:

Consent	Conditions			Sub Total	Show all info
	Non-Compliant N	Pending P	Compliant C		
Total	524	55	161	740	<input type="checkbox"/>

Below the table, there are two checkboxes: 'Show all info' and 'Group by Compliance', both of which are highlighted with a pink box. The text 'Showing 1 to 50 of total 740 search results' is visible. At the bottom, there are 'Rows 50' and 'Page 1 of 15' indicators, along with a 'Next' button. Below the table, there are two rows of data for 'Stormwater Discharge' with status indicators (N) and descriptions of conditions.

As a further enhancement to CS-VUE we have now supplied more in-depth reporting on condition responsibility and compliance from within the "Manage Project" function.

It is now easy to see at a glance how you are tracking with your compliance on a condition level across a number of consents.

Try ticking the different check boxes to take a look at the extra information now easily available. You are welcome to speak with [Jasmine](#), our Customer Relations Manager, to talk you through this if you require assistance.

Already we have had a lot of positive feedback from our customers about this

enhancement, and a many of our clients are now looking to put in a whole raft of different types of contracts, licenses, permits and management plans into CS-VUE, please feel free to contact us if you would like to trial other document types in the system.

CS-VUE UPDATES - ADDITIONAL BROWSE FUNCTIONS

The screenshot shows the CS-VUE web application interface. At the top, there is a navigation bar with tabs for 'Browse', 'Alerts', 'Projects', 'Dashboard', 'Contacts', and 'Docs'. Below this is a search and filter section with various dropdown menus and input fields. The filters include: Permit/Ref., Location, Purpose, Phase (All), Activity (All), Area (none), Status (Current), Grantor (All), Holder (All), Manager (All), and Responsibility (All). There are also buttons for 'New Consent' and 'Default View'. Below the filters, it says 'Showing 1 to 42 of total 42 search results'. At the bottom, there is a table with columns: 'Consent No.', 'Purpose and Location', 'Grant Date', and 'Expiry Date'. The 'Consent No.', 'Grant Date', and 'Expiry Date' columns are highlighted with red boxes.

You may have noticed a few extra buttons and drop down menus on the Browse Page, in summary these changes are:

- To get more from the new enhanced condition reporting, you are also now able to filter consents by those assigned responsibility for conditions within any consent.
- Consents can be sorted by consent number, granted date, and expiry date for faster searching.
- You may also notice that the "Activity" list is shorter; it now only displays the activity types assigned to active consents in your database.

Please feel free to get in touch with [Jasmine](#) if you would like to talk through these functions.

BY THE NUMBERS - STREAM BED SEDIMENT COSTS LOGGERS \$25,000

Auckland's environmental watchdog has had mixed results with legal action against loggers of Rodney's forests to stop sediment running off into the sensitive Mahurangi and Kaipara Harbours. In one Environment Court reserved decision, Holmes Logging and Woodmetrics were fined a total of \$25,000 for carelessly damaging a Matakana Valley Forest stream in 2006.

BY THE NUMBERS - \$8,000 FROM CARTER HOLT HARVEY

Carter Holt Harvey has contributed \$8000 to Environment Canterbury for environmental enhancement work in the Sefton area after the company pleaded guilty to accidentally discharging a contaminant in Salt Water Creek, North Canterbury last year.

CS-VUE CASE STUDY - AUCKLAND CITY COUNCIL

Stormwater projects manager Grant Ockleston says councils which take a proactive approach to consent compliance management will end up saving time, effort, and money satisfying Regional Council requirements.

He says Auckland Regional Council has already signalled a greater focus on ensuring compliance with consent conditions and has allocated more staff solely to carry out consent audits. Other regional councils are likely to follow.

Fortunately Auckland City Council foresaw that regional councils would develop a greater focus on ensuring compliance with consent conditions.
